SKILLS

FRONT END DEVELOPMENT ⏐ ReactJS • Redux • Axios • JavaScript • Bootstrap • Material UI • HTML5 • CSS3 • SASS
BACK END DEVELOPMENT ⏐ Java • Python • Django • NodeJS • Express • C / C++
UI/UX / Figma • Canva • Responsive Web Design
DEVLOPMENT TOOLS ⏐ VSCode • Atom • Eclipse • Git • MSSQL
VERSION CONTROL ⏐ Git • GitHub • GitLab
MISCELLANEOUS ⏐ Microsoft Azure • Git • GitHub • GitLab • DSA
SOFT SKILLS ⏐ Team Player • Communication • Time Management

WORK EXPERIENCE

Software Engineer Trainee   Bangalore, Karnataka

CitiusTech Healthcare Technology Private Limited   2022 - 2023

- Developed responsive and visually engaging user interfaces using **ReactJS** and **Material UI.**
- Implemented APIs with **Flask** to ensure seamless interaction between frontend and backend systems.
- Collaborated with the design team to convert mockups into responsive and functional UI elements.
- Mapped project requirements to detailed plans, ensuring alignment with business objectives.
- Overcame challenges by finding innovative solutions and seeking guidance when necessary.
- Actively supported team members and worked closely with team leaders to ensure project success.
- Received comprehensive training in **HTML5/CSS3, JavaScript, TypeScript, JQuery, Bootstrap, React.js, Python, Flask, Django, C, Git, GitHub, MSSQL, and Azure Cloud Basics.**

PROJECTS

Safe Homes - Real Estate Website

- **Role:** Freelance Web Developer
- **Description:** Developed a responsive website for Safe Homes to showcase their services and allow potential clients to connect through a contact form. The form was integrated with PHP to send inquiries directly to the company's email.
- **Technologies Used:** HTML, CSS, JavaScript, Bootstrap, PHP.
- **Key Contributions:** Ensured the site was optimized for various devices and browsers, providing a consistent and accessible experience for all users.
- **Outcome:** Successfully delivered the project, resulting in a professional online presence for Safe Homes.
- **Link:** safehomes.biz

Online Portfolio

- Showcased select projects and skills to demonstrate my approach to coding and solving complex problems.
- Applied responsive design principles to ensure seamless viewing on all devices, maintaining a user-centric approach to design.
- **Technologies Used:** HTML, CSS, JavaScript, Bootstrap, PHP.
